f) RESIDENT, GRADUATE AND FELLOW SUPERVISION & MENTORING DETAILS

Co-Supervisor Master of Engineering Degree (2012-2014)

Department of Engineering, Carleton University, Ottawa ON, Canada

Supervised Master's Candidate:

Hakim Louati, Department of Engineering, Carleton University, Sep 2012-Sep 2014

Co-Director and Co-Supervisor, Shoulder and Elbow Surgery Clinical Fellowships (2009-pres)

Division of Orthopaedic Surgery, University of Ottawa, Ottawa ON, Canada

Supervised Fellows: 22 completed; 1 in progress

Dr. Ahmed Al Mulhim (Saudi Arabia), Shoulder / Elbow Fellowship, Principal Supervisor, Aug 2025-July 2026 (*in progress*)

Dr. Mikaela Peters (CAN), Shoulder/Elbow Fellowship, Principal Supervisor, Aug 2024- July 2025

Dr. Cristina Bassi (Switzerland), Shoulder/Elbow Fellowship, Principal Supervisor, Aug 2023- Sept 2024

Dr. Kellen Walsh (CAN), Shoulder/Elbow Fellowship, Principal Supervisor, Aug 2023- July 2024

Dr. Julien Caron (CAN), Shoulder/Elbow Fellowship, Principal Supervisor, Aug 2023- Jan 2024

Dr. Jillian Fairley (CAN), Shoulder/Elbow Fellowship, Principal Supervisor, Aug 2022- July 2023

Dr. Jonathan Doyon (CAN), Shoulder/Elbow Fellowship, Principal Supervisor, Aug 2021- July 2022

Dr. Amarपाल Cheema (CAN), Shoulder/Elbow Fellowship, Principal Supervisor, Aug 2021-July 2022

Dr. Ana Alfonso (Spain), Shoulder/Elbow Fellowship, Principal Supervisor, July 2020- June 2021

Dr. Louis-Philippe Baisi (CAN), Shoulder/Elbow Fellowship, Principal Supervisor, July 2020- June 2021

Dr. Ang Li (CAN), Shoulder/Elbow Fellowship, Principal Supervisor, Aug 2019-June 2020

Dr. Orlyn Collins (Africa), Shoulder/Elbow Fellowship, Principal Supervisor, Dec 2018 -June 2020

Dr. Saif Aldhuhoori (UAE), Shoulder/Elbow Fellowship, Principal Supervisor, Aug 2018-June 2019

Dr. Pascale Derome (CAN), Shoulder/Elbow Fellowship, Principal Supervisor, July 2017-June 2018

Dr. Carlos Pena Rodrigues (Spain), Shoulder/Elbow Fellowship, Principal Supervisor, July 2017-June 2018

Dr. Meaghan Rollins (CAN), Shoulder/Elbow Fellowship, Principal Supervisor, Sep 2016-June 2017

Dr. Lisa Howard (CAN), Shoulder/Elbow Fellowship, Principal Supervisor, July 2016 - June 2017

Dr. Randa Berdusco (CAN), Shoulder/Elbow Fellowship, Principal Supervisor, July 2015 – June 2016

Dr. Liangfu Jiang (China), Shoulder/Elbow Fellowship, Principal Supervisor, July 2012 - June 2013

Dr. Milton Parai (CAN), Shoulder/Elbow Fellowship, Principal Supervisor, July 2011 - June 2012

Dr. Rey Chaudhary (CAN), Shoulder/Elbow Fellowship, Principal Supervisor, July 2010 - June 2011

Dr. Emilio Lopez-Vidriero (Spain), Shoulder/Elbow Fellowship, Principal Supervisor, July 2009 - Jun 2010

Co-Supervisor, Shoulder and Elbow Surgery Clinical Resident Rotation (2008-pres)

Division of Orthopaedic Surgery, University of Ottawa, Ottawa ON, Canada

Supervised Residents: 8-10 orthopaedic surgery residents per year (R1-R5)

g) RESEARCH GRANT FUNDING

LIFETIME FUNDING (as Co-Investigator): \$4,434,559.00

PSI Research Grant – Physicians' Services Incorporated (PSI) Foundation (2025-2027)

- Title: TransFER of the lower trapezius tendon versus Partial Cuff Repair Trial (TENET trial).
- PSI Grant Number 25-04
- Total Funding: \$145,000
- Co-Investigator: J Pollock, Lead Investigator: Peter Lapner
- Study design / protocol / grant application/ lab work/ surgical dissection

Canadian Shoulder and Elbow Society (CSES) – Canadian Orthopaedic Foundation (2024)

- Title: Glenoid Bone Loss Treatment with Osseous Augmentation with Coracoid vs Allograft [BLOC Trial]
- Total Funding: \$25,000.00
- Co-Investigator/Collaborator: J Pollock, Lead Investigator: Dr. Peter Lapner
- Protocol Design, Ethics, Recruitment, Manuscript

Canadian Shoulder and Elbow Society (CSES) – Canadian Orthopaedic Foundation (2024)

- Title: Lower Trapezzius Tendon Transfer vs Partial Arthroscopic Rotator Cuff Repair for Massive Rotator Cuff Tears: A Pilot Randomized Control Trial [LIFT trial]
- Total Funding: \$20,000.00
- Co-Investigator/Collaborator: J Pollock, Lead Investigator: Dr. Peter Lapner
- Protocol Design, Ethics, Recruitment, Manuscript

BioBrace – Conmed (2023)

- Title: A prospective single blind, multi-center, randomized controlled, pivotal study to evaluate the safety and effectiveness of the BioBrace Implant during arthroscopic repair of the full thickness rotator cuff tears.
- CIP Number CSP-BB0003
- Total Funding: approx. \$150,000 (\$9500 / patient)
- Lead Principal Investigator / Site PI: J Pollock
- Protocol Design, Recruitment, Data Analysis, Manuscript

Workplace Safety and Insurance Board (WSIB) – Canadian Orthopaedic Foundation (2023)

- Title: Revisiting Value and Efficacy (REVIVE) a quality improvement initiative in arthroscopic cuff repair.
- Total Funding: \$283,868.00
- Co-Investigator: J Pollock
- Protocol Design, Recruitment, Manuscript

Canadian Shoulder and Elbow Society (CSES) – Canadian Orthopaedic Foundation (2023)

- Title: A randomized double-blinded sham-controlled trial on the efficacy of arthroscopic tennis elbow release for the management of lateral epicondylitis
- Total Funding: \$19,195.00
- Lead Principal Investigator: J Pollock
- Protocol Design, Ethics, Recruitment, Manuscript

TOHAMO Innovation Fund – Innovation Fund Provincial Oversight Committee Approval (2022-23)

- Title: Revisiting value and efficacy (*REVIVE*) A quality improvement initiative in arthroscopic cuff repair
- Total Funding: \$99,500
- Co-Investigator/Collaborator: J Pollock, Lead Investigator: Dr. Peter Lapner
- Recruitment

MTF Biologics – Clinical Research Grant (2020-pres)

- Title: Arthroscopic partial repair vs. Superior capsular reconstruction for massive irreparable rotator cuff tears: A Pilot randomized and controlled trial
- Budget: \$500/patient (partial repair) + \$2,500/patient (SCR)
- Site Principal Investigator: J Pollock, Lead Investigator: Patrick Henry
- Ethics, Recruitment

Wright Medical Group – Research Grant (2020-pres)

- Title: Multicenter randomized study of personalized instrument in total shoulder arthroplasty: The P.I.T.S.A. Study
- Budget Agreement: \$1,000/patient
- Site Co-Investigator: J Pollock, Lead Investigator: Dominique Rouleau
- Recruitment

Canadian Orthopaedic Foundation, CSES Research Grant (2020-pres)

- Title: Immersive virtual reality effectiveness in orthopaedic education: RCT
- Total Funding: \$20,000
- Co-Investigator: J Pollock, Principal Investigator: Danny Goel
- Study design, recruitment, interpretation of results

Resident Research Grant – Physicians' Services Incorporated (PSI) Foundation (2020-2021)

- Title: Comparison of standard versus posterior augmented components in shoulder arthroplasty, a biomechanical study.
- Total Funding: \$30,000
- Co-Investigator: J Pollock, Lead Investigator: Peter Lapner

- Study design / protocol / grant application/ lab work/ surgical dissection

Linvatec (Canada) – Research Grant (2020-2021)

- Title: Approach to instability: A randomized controlled trial comparing two treatment algorithms
- Total Funding: \$25,000
- Co-Investigator: J Pollock, Lead Investigator: Peter Lapner
- Study design / protocol

Department of Surgery Research Grant (2019-2021)

- Title: Approach to management of the retroverted glenoid in shoulder arthroplasty: A pilot randomized control trial
- Total Funding: \$120,000 (\$60,000/year)
- Study Co-Investigator: J Pollock, Lead Investigator: Peter Lapner
- Study Design, grant application, recruitment, interpretation of results

DND Department of National Defense Research Grant (2018-pres)

- Title: PERK II study: Prevention of post-traumatic contractures with Ketotifen II.
- Total Funding: \$2,440,796
- Budget: \$1275/patient
- Site Principal Investigator: J Pollock, Study Principal Investigator: Kevin Hildebrand
- Recruitment, grant application, study protocol

Physicians' Services Incorporated (PSI) Foundation Grant (2018-2019)

- Title: Quantification of the exposure of the glenohumeral joint achieved with long head of biceps and pectoralis major release in the deltopectoral approach to the shoulder
- Total Funding: \$19,500
- Co-Investigator: J Pollock, Principal Investigator: Peter Lapner
- Study design, laboratory work, surgical dissection, interpretation of results, manuscript

Canadian Orthopaedic Research Legacy (CORL) Grant (2015-2016)

- Title: Validation of synovial biopsy for diagnosis of infection in shoulder arthroplasty – synovial biopsy
- Total Funding: \$20,000
- Co- Investigator: J Pollock, Principal Investigator: Peter Lapner
- Study design, recruitment, interpretation of results, manuscript review

Canadian Institutes of Health Research (CIHR) Grant (2011-2016)

- Title: Stem cell augmentation of rotator cuff repair
- Total Funding: \$865,000
- Co- Investigator: J Pollock, Principal Investigator: Guy Trudel
- Study design, grant application, recruitment, interpretation of results, manuscript

Department of Surgery Grant (2014-2015)

- Title: Validation of synovial biopsy for the diagnosis of infection in shoulder arthroplasty - synovial biopsy
- Total Funding: \$25,000
- Co-Investigator: J Pollock, Principal Investigator: Peter Lapner
- Role: Study design, recruitment, interpretation of results, manuscript

The Ottawa Hospital Academic Medical Organization (TOHAMO) (2013-2015)

- Title: Trephination in rotator cuff repair: a randomized controlled trial
- Total Funding: \$97,000
- Co-Investigator: J Pollock, Principal Investigator: Peter Lapner
- Role: Study design, grant application, recruitment, interpretation of results, manuscript

Resident Research Grant – Physicians' Services Incorporated (PSI) Foundation (2011-2012)

- Title: Biomechanical evaluation of the long and short heads of the distal biceps contribution to elbow flexion strength and forearm supination strength
- Total Funding: \$18,000
- Co-Investigator: J Pollock, Principal Investigator: Marc Prud'Homme-Foster
- Study design, grant application, laboratory work, interpretation of results, manuscript

Resident Research Grant – Physicians' Services Incorporated (PSI) Foundation (2005-2006)

- Title: Assessment of back and/or leg pain: Which questions are valid and reliable?
- Total Funding: \$5500
- Principal Investigator: J Pollock
- Study design, data collection, interpretation of results, manuscript

Department of Spinal Surgery Research Travel Grant (2004)

- University of Ottawa, Ottawa ON
- Total Funding: \$1200
- Study design, data collection, interpretation of results, podium presentation, manuscript
