Vol 3 No. 4

May 2018

Another academic year is coming to an end! We had another great Uthoff Research Day and evening which this year was combined with our ***Ottawa Orthopaedic Alumni Update II*** with over 50 participants. This was a great success permitting our residents to network with our alumni from across the country. Congratulations to our graduating class of residents and fellows! We wish them the best of luck in their young careers. After two years of international search, we are extremely pleased to announce that *Daniel Coutu, PhD* will be the first holder of the Research Chair in Regenerative Orthopaedic Surgery. We say good bye to Dr. Alberto Carli who will be joining the staff at the Hospital for Special Surgery.

MODULATING SCOLIOSIS WITH VERTEBRAL BODY TETHERING

There is a growing interest in maintaining spinal motion while treating pediatric spinal deformity which has fueled the development of various growth modulation procedures, including Vertebral Body Tethering (VBT).

VBT is performed through a minimally invasive thoracoscopic approach. Early, short term, single institution series have been encouraging with few reported major complications.

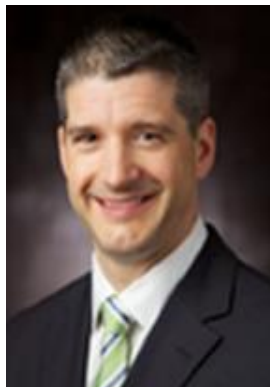

There has been significant patient and family interest in this “fusionless, minimally invasive” procedure, which is now being done in 4 Canadian cities; Montreal, Vancouver, Halifax and Ottawa. To date, 4 VBTs have been performed at CHEO with great initial success. Our current indications for VBT are: surgical magnitude or progressive curves, ongoing growth potential (pre-menarchal, Risser 0-2), and main thoracic curves. Please tune in to the CHEO Telethon on June 9-10th, 2018 for a patient story on VBT.

Figure 1: A- Pre-Op radiograph of a 53 degree progressive curve in a recently post-menarchal, Risser 1, 13 year old healthy female. B- 2 weeks post-Op radiograph after thoracoscopic VBT with an initial 50% curve correction.

ASPIRIN AS GOOD AS BLOOD THINNER FOR PREVENTING BLOOD CLOTS AFTER HIP AND KNEE REPLACEMENT SURGERY

Drs. Paul Kim and **Wade Gofton** co-authored a study published recently in the [New England Journal of Medicine](#) that found aspirin to be just as good as the blood thinner rivaroxaban for preventing blood clots after a hip or knee replacement. This multicenter study was led by Dr. David R. Anderson of Halifax. **Authors:** David R. Anderson, Michael Dunbar, John Murnaghan, Susan R. Kahn, Peter Gross, Michael Forsythe, Stephane Pelet, William Fisher, Etienne Belzile, Sean Dolan, Mark Crowther, Eric Bohm, Steven J. SPINE STAFF PARTICIPATE IN THE OLYMPINK MASTERS SPRINT CHALLENGE, A FUNDRAISER FOR THE OTTAWA BREAST HEALTH CENTRE

On April 7, 2018, **Drs. Eugene Wai and Alexandra Stratton** competed in the first OlymPink Masters Swim Meet at Brewer Pool, which helped raised over \$18,000 for The Ottawa Hospital. Dr. Wai won the award in his age group for fastest time in all six events combined and Dr. Stratton passed the torch to, and kicked a victory lap with, a breast cancer survivor.

Dr. Wai is now challenging anyone to race 2, 5 or 10K at the Feel It Your Bones Run on June 17, 2018 to raise money for the Ottawa Team Broken Earth Medical / Surgical Mission to Haiti. <https://feelitinyourbones.ca>

HAPPY RETIREMENT TO MAUREEN PRUBANT!

Maureen Prubant has retired after 36 years of service in Diagnostic Imaging at The Ottawa Hospital. Maureen's retirement party was held on March 24, 2018. Dr. Joseph O'Neil spoke on behalf of the division.

CLINICAL NEWS

CIVIC CAMPUS

Congratulations to Jackie Mace who has accepted the new position of Clinical Manager for the WSIB MSK program for The Ottawa Hospital. Jackie will be leaving E5 around the middle of May. ***Janice Baker*** will take over as acting Clinical Manager in the interim until a permanent decision is made related to the position.

Jackie started working in the Division of Orthopaedic Surgery in May 1988 at the General campus. In 1989, she became the night team leader until October 1998 when she became the Clinical Manager of the unit. In 2010, she moved to Ortho at the Civic campus where she has managed ever since.

Jackie obtained her certification in orthopaedics in 2008 from the Canadian Nurses Association and is on the national exam committee for certification. She is also the President of the Ottawa Chapter of the Canadian Orthopaedic Nurses Association (CONA) and has served as National President in the past. Jackie was involved in the annual Rattle Me Bones races as a volunteer with Drs. Giachino and Karsh from 1994-1999. In 2000, she and Kent Woodhall took over the Race and raised over one million dollars for Orthopaedic research before stepping down in 2015.

RESIDENT NEWS

CONGRATULATIONS TO OUR GRADUATING RESIDENTS!

Left to right: Drs. Paul Jamieson, Bogdan Matache, Andrew Stewart, Andrew Bodrogi and Caleb Netting

Congratulations to the PGY-2 residents on completing the Surgical Foundations exam! They could not be happier! Our PGY-5 residents wrote their Royal College exams on May 1-2nd. We wish them luck on their oral exam to be held on May 23rd. We know they will be amazing!!

Drs. Olivier Gauthier-Kwan (PGY-4) and Youjin Chang (PGY-3) went with CAMTA to Ecuador recently and had such a great experience both surgically and culturally. One of the photos below is Youjin's favorite memory - a thank you note from a child they operated on.

Drs. Youjin Chang, Olivier Gauthier-Kwan

Dr. Massimo Petrera (PGY-2) is the recipient of the ON/AANA Education Scholarship offered for the 2018 AANA meeting by Arthroscopy Association of North America and Ortho regeneration Network Foundation to young AANA members with interest and research experience in the field of cartilage repair and tissue engineering.

Congratulations to our PGY-4 residents on securing prestigious fellowships:

Dr. Mahmoud Almasri - Sports at Cincinnati Sports Medicine & Orthopaedic Center

Dr. Olivier Gauthier-Kwan - Foot and Ankle at Adelaide Australia

Dr. Ivan Kamikovski - Sports and Upper Extremity at Pan Am Clinic

Dr. Lisa Lovse - Sports at Detroit Medical Center

Dr. Meaghan Marien - Pediatrics at Utah

Dr. Manisha Mistry - Upper Extremity & Trauma at Sunnybrook

Dr. Kevin Rasuli - Shoulder & Elbow at Rush

The 6th Annual Royal College Boot Camp for PGY-5 residents took place at Dr. Feibel's cottage the first weekend of March. The simulated oral examinations featured difficult and unusual cases with time compression - a 15 minute case is compressed to 12 minutes. Cases are discussed after the examinations and all PGY-5's are sworn to secrecy.
